

Signs of Growth

Mwangaza programs ...

...**CHANGE** teachers by expanding their knowledge of content and teaching methods.

...**CHANGE** women leaders by utilizing skills to strengthen healthy relationships and develop innovative responses to conflict within family and community.

...**CHANGE** parents, students, and teachers by engaging them in creative artistic expressions that develop better understanding of behavioral change related to HIV/AIDS.

...**CHANGE** church leaders—both men and women—by raising awareness of water-borne diseases, land stewardship, and conflict resolution.

...**CHANGE** teachers by teaching computer and Internet skills.
